

### **REMARKS**

Claims 1-5 are pending in the Application. All claims have been rejected. However, the Examiner has indicated, as Applicant notes with appreciation, that all claims would be allowable if claim 1 were rewritten or amended to overcome the rejection under 35 U.S.C. 112, second paragraph.

Accordingly, claim 1 has been amended to clarify that the line sieze module's "automatic dialer" is referenced in line 15 of claim 1 as originally filed. No new matter has been introduced. Allowance of claims 1-5 is respectfully requested.

Applicant wishes to thank the Examiner for pointing out the typographical error in the specification with respect to the parent application. The specification has been amended to correct this error, and as well to include the patent number as issued. To correct the same error in the Declaration, an Application Data Sheet with the correct priority information is being filed concurrently per Examiner Woo's instruction by voicemail to the undersigned on August 27, 2004.

The abstract has been replaced with a new abstract that is directed at the claimed invention.

No new matter has been introduced by any of the above amendments.

Concurrent with the filing of this Amendment, Applicant is filing a Revocation Of Power Of Attorney With New Power Of Attorney And Change Of Correspondence Address, along with a Statement Under 37 CFR 3.73(b).

Applicant respectfully requests that a timely Notice of Allowance be issued in this case. If the Examiner feels that a telephone conference would expedite allowance of this case, the Examiner is invited to call the undersigned at (978) 731-7244.

Respectfully submitted,

By *Gerald M. Bluhm*
